12 MONTH PARTS ONLY WARRANTY ON HYDRAULIC RAM & HYDRAULIC PUMP IN ADDITION TO STANDARD 12 MONTH WARRANTY***

Excludes GST
\$11,499
Inc. GST \$12,648.90

FEATURES

- Heavy-duty H-frame constructed of high-grade steel and built to exacting standards for quality and durability.
- Foot operated air trigger ram travel control. • 100mm pressure gauge. • Extra tall working range for versatility. • Pair of bed plates included
- Table winch system lowers or raises the bed. • Integrated overload protection valve keeps from overloading the system.
- High quality large diameter hydraulic steel cylinder unit results in lower oil pressure needed to raise the load, helping to reduce wear and extend service life.
- Piston-ram is treated and polished and fitted with backup ring, preventing load from falling slowly or bypassing oil drift.
- Hydraulics are powered with a high quality oil, which offers better corrosion resistance and high/low temperature flexibility, allowing the unit to operate at temperatures.
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust. Oil, grease and dirt-resistant for easy clean up.

***UNLESS STATED OTHERWISE, ALL TQB BRANDS PRODUCTS, EXCLUDING CONSUMABLES, COME WITH A 12 MONTH COMMERCIAL USE WARRANTY AGAINST MANUFACTURING DEFECTS. THE BONUS 12 MONTH WARRANTY OFFERED EXCLUSIVELY IN THIS PROMOTIONAL PERIOD APPLIES ONLY TO THE HYDRAULIC RAM AND HYDRAULIC PUMP FOR "BONUS" MARKED PRODUCTS. THE ADDITIONAL 12 MONTHS DOES NOT INCLUDE INSTALLATION/REMOVAL LABOUR OR FREIGHT FOR THE COMPONENT.

MORE THAN JUST A PRESS!

Workshop Mate Workstation featuring a 30,000KG Shop Press & Spring Compressor

FEATURES

AIR/HYDRAULIC OPERATED 30,000KG PRESS
 SPRING COMPRESSOR. FILTER CRUSHING ACCESSORY
 DOZENS OF UNIQUE TOOLING OPTIONS
 ON-BOARD TOOLING STORAGE STAND
 WINCH OPERATION TO LOWER AND RAISE BENCH

BENEFITS

Press almost any bearing or bush with **PRECISION** and **ACCURACY** in minutes, saving valuable workshop time.
 Smooth **AIR/HYDRAULIC** foot pedal operation for hands-free accuracy & control.
 Hands free Spring Compression.
 Even the most difficult pressing tasks become **SAFE & EASY**.
 Complete with **COMPREHENSIVE HIGH QUALITY** Interlocking Tool, Die and Spacer Kit to ensure **SAFE WORK PRACTICES**.
 Complete on machine storage - minimises time spent searching for the required tools & spacers for each job!
 Tasks like **SUSPENSION BUSHES** once seen as too hard become a breeze.
 A comprehensive variety of spring adaptors, suitable to almost any type or model of spring **SAFE & EASY** to compress in **MINUTES!**
 Decrease labour time & increase productivity and efficiencies.
INCREASE WORKPLACE SAFETY.
 Undertake jobs that are currently too difficult.

Safe working capacity: 30,000kg
 Working range: 224mm-819mm
 Piston ram stroke main ram:
 140mm (Standard load cap fitted)
 Bed height settings: 85mm increments-8 settings
 Bed width: 466mm Bed gap: 200mm

BPP20T **BORUM**
INDUSTRIAL WORKSHOP EQUIPMENT

Safe working capacity: 20,000kg
Extension tubes: 125, 255, 510, 700mm
3 each, 70mm connective tube & 60mm joint connector tube
Base, Ram toe, Plunger toe
Wedge toe, V-base, Wrench
Retracted ram length: 285mm
Ram stroke: 125mm
Hydraulic hose length: 1470mm
Weight: 62kg

20,000kg Capacity

INDUSTRIAL QUALITY

FEATURES

- Constructed of high-grade steel and built to exacting standards for quality and durability.
- Lead-free paint finish is zool, grease and dirt-resistant for easy cleanup.
- High quality hydraulic steel cylinder unit helps to reduce wear and extend service life.
- Piston-ram is treated and polished.
- Hydraulics are powered with a high quality oil, which offers better corrosion resistance and high/low temperature flexibility.
- Heavy walled extension tubes stand up in tough applications.

Air/Hydraulic Pump

2054T **TRADEQUIP**
The trusted brand in equipment

Maximum output pressure: 10,000psi
Usable hydraulic fluid capacity: 2.25 Litres
Operating air pressure: 90-145 psi
Air consumption: 7.5CFM @ 100 psi
Oil delivery with No Load: 49.5 cu.in/min
Oil delivery with Load: 7.6 cu.in/min
Input (Air) port thread: 1/4" - 18 NPT
Output (Oil) port thread: 3/8" - 18 NPT

HANDS FREE POWER

MADE FOR THE TRADE

FEATURES

- Durable light-weight corrosion-free aluminium.
- Built-in overload system prevents pump from being used beyond its safety capacity.
- Ergonomic hand/foot activation lever.
- Air/oil filters minimise contaminants in hydraulic system.
- Perfect for porta power rams & bead breakers.
- Compact design fits in truck storage boxes.
- Air exhaust muffler for quiet operation.

Excludes GST

Combi Portable Bead Breaker 5,000KG

BTBB05 **BORUM**
INDUSTRIAL WORKSHOP EQUIPMENT

Working load limit: 5,000kg
Pressure connection: 3/8"-18NPTF
Rated pressure: 10,000psi
Maximum rim size: 26"
Suits 1, 2 & 3 pce rims (up to 26")
with pry bar / bead loosening pockets
Ram stroke: 90mm

FEATURES

- Durable steel construction.
- Clamps to wheel rim & breaks bead simply with up to 5,000kg of force.
- Requires 10,000psi air/hydraulic pump (sold separately).

Excludes GST
\$629
Inc. GST \$691.90

Suits Tradequip 2054T & 2054-H

INDUSTRIAL QUALITY

Giant Portable Bead Breaker 13,000KG

BTBB13 **BORUM**
INDUSTRIAL WORKSHOP EQUIPMENT

Working load limit: 13,000kg
Pressure connection: 3/8"-18NPTF
Rated pressure: 10,000psi
Suits 5 pce rims 635-1, 295mm (25"-51")
with pry bar / bead loosening pockets
Maximum rim size: 26"
Ram stroke: 105mm

FEATURES

- Economical solution for earthmover wheels 25" - 51" multi-piece rims with pry bar pockets.
- Hydraulically clamps on wheel.
- Durable steel construction.
- Hydraulic power breaks beads in seconds.
- Requires 10,000psi air/hydraulic pump (sold separately).

Suits Tradequip 2054T & 2054-H

Replacement Parts Washer Pump

1005 **TRADEQUIP**
The trusted brand in equipment

Power: 230V 50Hz 26W 0.6Amp
Cable length: 305mm
Head max: 1.8m
Flowrate: 3.15 litres per minute
Outlet thread: 1/2" NPT Female
100L x 85H x 65W mm

WARNING: ONLY SUITABLE FOR USE WITH WATER BASED SOLUTIONS

Excludes GST
\$84
Inc. GST \$92.40

FEATURES

Sturdy poly/plastic body. Stainless steel shaft.
Suits parts washers with chromed flexible metal fluid delivery pipes.
Snap off inlet grill for easy cleaning.
Suitable for use with aqueous water based cleaning fluids.
Works with TradeQuip parts washers (Code/s 1003T, 1004T and 1050, sold separately)

DESIGNED FOR AUTOMOTIVE & INDUSTRIAL APPLICATION

6 Litres **TRADEQUIP** *The trusted brand in equipment*

Capacity: 6 Litres
Ultrasonic power: 150W
Ultrasonic frequency: 40KHz
Heating power: 300W
Heating temperature: 20-80 C

Timer range: 0-30 Minutes
Tank material: 304 Grade 2mm thick
Tank size: 300L x 155W x 150Hmm
Size: 330L x 180W x 310Hmm

- * 30 Minute Timer
- * Adjustable Temp. Control
- * 304 Grade Stainless Steel Tank

FEATURES

TradeQuip "Made for the Trade" Ultrasonic Parts Cleaners make it easy to clean items like carbies, calipers, nuts & bolts, most small metal parts - even jewelry. Just fill the cleaner with water, mix with the appropriate ultrasonic cleaning additive (sold separately), set the timer and walk away to get on with another job. The ultrasonic cleaner works with or without heat and provides deep cleaning using ultrasound technology and water. The adjustable temperature and timer gives you a variety of cleaning performance options.

LARGER SIZES AVAILABLE FOR SPECIAL ORDER. PLEASE ENQUIRE WITH YOUR PREFERRED DISTRIBUTOR

Blasting Cabinet 220 Litre Capacity

3051 **TRADEQUIP**
the trusted brand in equipment

Cabinet capacity: 220 Litre
Working pressure: 60-110psi
Maximum media capacity: 20kg
4 Ceramic nozzle tips: 4, 5, 6 & 7mm
With gun & low voltage internal fluorescent light
Tempered glass view window: 250 x 525mm
External size: 1400H x 890L x 550Wmm

Includes gun and light

Tempered glass window

Side opening door

Suitable for use with workshop vacuum

220 LITRE Capacity

FEATURES

Freestanding floor model. Complete with gun and low voltage internal fluorescent light. Tempered glass viewing window with protective shields. Cabinet fitted and ready to be used with a workshop vac as dust collection system. Spare parts available in Australia.

MADE FOR THE TRADE

Excludes GST
\$849
Inc. GST \$933.90

Blasting Cabinet 420 Litre Capacity

3036T **TRADEQUIP**
the trusted brand in equipment

Cabinet capacity: 420 Litre
Air regulator & gauge panel
4 Ceramic nozzles: 2x5mm, 2x6mm
Maximum media capacity: 70kg
Maximum air pressure: 125psi
Required air supply: 15-25CFM
14 gauge steel legs & 16 gauge panels
Sand blasting efficiency: 100cm²/min
Optimum operating pressure 60-110psi
External size: 1680H x 1180W x 940Dmm

Oversized hinged top door opening

Includes 240V dust extraction system

420 LITRE Capacity

MADE FOR THE TRADE

Includes blasting gun & vinyl blaster gloves

FEATURES

Perfect for surface preparation on any type where other forms of preparation are difficult. Ideal for removing paint, rust, scale and oxidation. Large viewing window gives the operator a wide viewing area. Oversized hinged top door opening & large inside work area allows easy maneuverability. Hinged door on hopper allows for easy abrasive changes. Fluorescent light kit and 90CFM dust collector help the operator to maintain a good visual. Rear-mounted dust collector. Replaceable protective window. Foot-pedal-controlled siphon blast gun.

Excludes GST
\$3099
Inc. GST \$3408.90

Foot operated pressure control valve

the trusted brand in equipment

BLASTING MEDIA ABRASIVE

TradeQuip "Made for the Trade" Blasting Media Abrasives are designed for use in conjunction with our TradeQuip Mobile Blasting Kits and Blasting Cabinets. Abrasive blasting has been used for many years to clean and remove rust, paint and corrosion. There are many types of abrasive media available, the most common being Garnet, Steel Grit and Glass Bead. These media have an aggressive cut and can rapidly remove paint and rust. However, they can also generate significant heat, potentially resulting in warped metal and etched surfaces, and they cannot be used on fiberglass. Also, chrome, plastic, rubber, trim, and other parts must be removed from a work surface or masked-off before blasting. Alternatively, less-aggressive media, such as Walnut Shell, will do a great job at removing paint. Walnut Shell does not generate as much heat as other media, and can be used on sheet metal and fiberglass without damaging the base material. However, Walnut Shell as with any abrasive media, will require more clean-up as it leaves particles in the car body's seams and crevices that can be difficult to completely remove. Soda blasting media has non abrasive properties which makes it a very universal blasting media which can be applied to lighter materials such as aluminium, plastic, fiberglass, wood etc. Soda Blasting does not damage glass, rubber, chrome items if they are left on a vehicle for blasting.

GARNET 25KG MEDIUM 30/60 3020T

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$58
Inc. GST \$63.800

GARNET 25KG FINE 35/100 3021T (Australian Mined)

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$66
Inc. GST \$72.050

WALNUT SHELLS 20KG 6-100 MICRON 3022T

Walnut Nut shells and other organic materials, don't cause anchor patterns, making them useful for removing dirt, grease, oil, carbon, scale, burrs and paint without changing the underlying substrate. Walnut shells can be an excellent choice for softer surfaces such as wood — they won't cause etching. Walnut shells are one of less abrasive blasting media you can use and are completely biodegradable, making them among the most environmentally-friendly blasting media.

Excludes GST
\$179
Inc. GST \$196.90

GARNET 25KG COARSE 20/40 3023T

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$62
Inc. GST \$68.20

GLASS BEAD 25KG 106-300MICRON 3025T

Glass beads are used for general cleaning, peening and cosmetic finishing of sensitive metal surfaces; removing automotive paint; brightening grout and removing fungus and calcium deposits from tile; polishing cast iron, stainless steel, aluminium, propellers and turbine blades. Glass Beads are environmentally friendly and can be used in many blast applications to provide a finish with no profile. Use while working with metal, plastic or rubber materials to clean, debur and finish.

Excludes GST
\$99
Inc. GST \$108.90

SODA BI CARB 22KG 3028T (Product of America)

Clean tools, strip paint and more with Soda Bi-Carbonate. The medium-sized crystals provide blasting power to smooth and strip paint without damaging other surfaces. Works with aluminum, steel, stainless steel, fiberglass and more...

Excludes GST
\$135
Inc. GST \$148.50

Soda/Sand Blasting Hood

3053 **TRADEQUIP**
the trusted brand in equipment

Durable fabric & synthetic-leather construction
Large 110mm x 55mm acrylic viewing plate
Adjustable internal helmet for added comfort
Reinforced side ventilation panels for increased airflow

FEATURES

Protect eyes and face from "rebounding" abrasive particles by wearing Abrasive Blasting Hood. Ideal for many abrasive-blasting applications.

Excludes GST
\$52
Inc. GST \$57.20

MADE FOR THE TRADE

NOT FOR RESPIRATORY PROTECTION

Motorcycle Lifter 360KG

2102T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: 360kg
Height: 205 - 780mm
Platform: 490W x 1345Lmm
Weight: 95kg

MADE FOR THE TRADE

Features wide lifting stability

360kg Capacity

Excludes GST
\$929
Inc. GST \$1021.90

Motorcycle Scissor Lift 500KG

2104T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: 500kg
Height: 95 - 420mm
Platform dimensions: 450x150mm
Weight: 13.8kg

MADE FOR THE TRADE

FEATURES

Designed to deliver the ideal lift for use with motorcycles, ATV's, tractors, personal watercraft, and snowmobiles.
Lifts back wheel off lift table for tyre/wheel change.
Powder coated structural heavy duty steel construction.
Rotate lead screw to adjust & raise the lift.
Bolt down lugs to prevent unwanted movement.

Excludes GST
\$165
Inc. GST \$181.50

Motorcycle Lifter 450KG

2101T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: 450kg
Height: 175 - 750mm
Platform: 680W x 2200Lmm
Weight: 120kg

MADE FOR THE TRADE

Excludes GST
\$1189
Inc. GST \$1307.90

450kg Capacity

FEATURES

Ideal lift for use with motorcycles, ATV's, tractors, personal watercraft & snowmobiles.
Locking bar for safety.
Powder coated structural heavy duty steel.
Extra Long Full width loading ramp.
Step-less rate of lowering irrespective of load.
Oil trap plate for easy drainage.
2 foot pedals for raising & lowering - for easy hands free operation.
Fitted with 2 position platform locking device to prevent accidental lowering.
Quality wheels and swivel castors making it easier to position and move around.
Lockdown bolts to prevent unwanted movement during use.
Does not include tie down straps.

Motorcycle Lifter Air Actuated 680KG

2103T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: 680kg
Height: 185 - 825mm
Platform dimensions: 710 x 2000mm
Required air pressure: 0.75-0.85Mpa
Weight: 169kg

OPTIONAL EXTRA

Side Extensions
2103T-EXT

Excludes GST
\$2099
Inc. GST \$2308.90

MADE FOR THE TRADE

680kg Capacity

FEATURES

Designed to deliver the ideal lift for use with motorcycles, ATV's, tractors, personal watercraft, and snowmobiles.
Locking bar for safety.
Extra long full width loading ramp.
Powdercoated structural heavy duty steel.
Stepless rate of lowering irrespective of the load.
Oil trap plate for easy drainage.
Lockdown bolts.
2 foot pedals for raising & lowering - for easy hands free operation.
Fitted with 2 position platform locking device.

ABOUT EAGLE PRO HYDRAULICS

With nearly 3 decades experience of manufacturing hydraulic tools for industrial applications, Eagle Pro Hydraulics has become the trusted partners for applications spanning from offshore plant maintenance to mining, infrastructure, commercial and industrial. Eagle Pro Hydraulics are manufactured to ISO 9001:2018 through international quality assurance programs which involve consistent observation of administration, management, manufacturing and production control. Eagle Pro hydraulic cylinders meet or exceed ANSI B30.1. This results in reliable and dependable high-quality products you can count on every time.

ES SERIES

Single Acting General Purpose

Eagle Pro ES series redefines durability for the harshest of industrial environments with its high strength alloy steel construction. Hardened and chromed piston ensures superior product life by reducing wear and corrosion. Eagle Pro ES series is not only durable, it gets the job done! Heavy-duty, straight pull return springs provide fast retraction. For greater flexibility and easy mounting, the ES series comes with collar, multiple piston threads, and base mounting holes. Hardened and E-coated snap-in type saddle prevents piston jamming and mushrooming, practically eliminating downtime. The female coupler comes with a dust cover - preventing dirt and debris from entering the hydraulic system. The Eagle Pro ES series also complies with ASME B30.1 standard.

EDH SERIES

Double Acting Hydraulic

The Eagle Pro EDH series incorporates a hollow piston design that allows both pushing and pulling forces. The construction of high strength alloy steel maximizes durability. The EDH series' double acting operation ensures fast and controlled piston reaction time. Accidental over-pressurization is prevented with a built-in safety valve. The collar, piston threads, and base mounting holes enable easy fixturing.

ED SERIES

Double Acting General Purpose

The Eagle Pro ED series produces fast and controlled piston contraction thanks to the double acting operation. A built-in safety valve prevents accidental-over pressurization. Most models include collar, piston threads, and base mounting holes to make fixturing a simple task. Piston jamming and mushrooming is prevented by the cylinder's hardened, and E-coated snap-in saddle. The ED series enhances durability with a hardened and chromed piston that reduces wear and corrosion. ED series cylinders are easy to move around the job site with the addition of carrying handles (and eyebolts on larger models) that ease positioning and carrying. A durable, anti-corrosive finish is added using an environmentally friendly coating process.

EDX SERIES

Double Acting High Tonnage

Eagle Pro EDX series maximizes durability with the use of a high strength alloy steel. The built-in safety valve prevents accidental over-pressurization. The EDX is easy to carry and position with the included eyebolts. Optional tilt saddles are also available. The hardened and chromed piston minimizes wear and corrosion damage. The incorporation of base mounting holes enables easy fixturing. An environmentally friendly coating process provides a highly durable finish.

EL SERIES

Single Acting With Locking Collars

The Eagle Pro EL series includes an alloy steel lock nut for mechanical load holding. The EL series is constructed of a high strength alloy steel to maximize durability. The hardened chrome piston reduces damage caused from wear and corrosion. The over flow port functions as a stroke limiter. The EL series includes hardened grooved replaceable saddles. Composite bearings prevent metal-to-metal contact. Quick reaction times are obtained through with heavy-duty straight pull return springs. An environmentally friendly coating process produces a finish that further increases durability.

ESL SERIES

Low Profile And Pancake Style

Featuring a low-profile, or flat design, the Eagle Pro ESL series cylinder is an optimal choice for confined spaces. The hardened and chromed piston is constructed of high strength alloy steel that increases durability by reducing wear and corrosion. The grooved piston end does not require a saddle and the inclusion of mounting holes permits easy fixturing. Retraction time is quick thanks to the heavy duty, straight pull return springs. An environmentally friendly coating process is used to provide the durable anti-corrosion finish.

ESH SERIES

Single Acting Hollow Piston

The Eagle Pro ESH Series allows for both pushing and pulling by incorporating a hollow piston design. The heavy-duty return spring provides notoriously quick reaction times. Easy fixturing with the inclusion of collar threads.

EPA SERIES

Dual Speed Hand Pumps

The Eagle Pro EPA series hydraulic hand pumps are some of the most durable, powerful and reliable hand pumps in the industry today. The EPA series feature valve blocks that are machined from a single piece of high strength aircraft grade aluminum and high capacity reservoirs made from alloy steel* that maximizes durability. The EPA series hand pumps are compact and easy to carry around the job site. To get the job done faster, these powerful dual speed pumps offer some of the best flow rates in the industry. All of the EPA series hydraulic hand pumps feature an internal safety valve to prevent system damage.

Air/Hydraulic Workshop Press

45,000KG WIDE

45,000kg Capacity

2038T

Safe working capacity: 45,000kg

Working range: 159-859mm

Bed outside: 359mm

Bed inside: 195mm

Bed width: 826mm

Piston ram stroke: 190mm

Ram diameter: 90mm

Operating air pressure: 110-125 psi

1707H x 1420W x 800Dmm

Bed height settings: 6

Weight: 301kg

AIR OPERATED

6 HEIGHT SETTINGS

FEATURES

- High-grade steel frame.
- 2 speed pump. 100mm pressure gauge.
- Bed winch for easy raise and lower adjustment.
- Paint is oil, grease and dirt-resistant for easy cleanup.
- High quality large diameter hydraulic steel cylinder unit.
- Piston-ram is treated, polished.
- Includes hand winch.
- Integrated overload protection valve prevents overloading.
- Extra-long handle included for easy pumping.
- Double spring ram return for fast ram retraction.
